

## Polyester Wiper: ESD Wiper.

Material: polyester fiber (98% Polyester+2% carbon filament)

Knitting method: Double

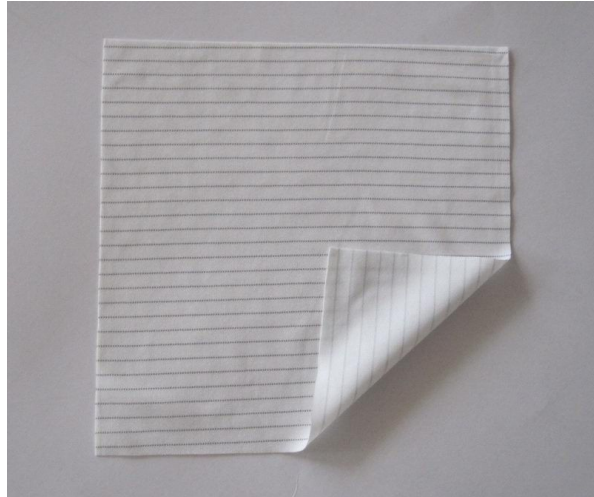

Basic weight: 150gsm

Resistance:  $10^8$  to  $10^{11}$  ohm

Edge Cutting: Laser sealing or Ultrasonic sealing

Cleanroom Laundry:  $18\Omega$  pure water laundered

Packing: Class10 clean-room with Inner bag (vacuum & anti-static), outer bag

Main Characteristics:

PN:ESD wiper is the popular polyester wiper with carbon filament. The Basic weight is 150gs. So its absorbency and resistance to abrasion is very nice. And it can be widely used in more static sensitive area. Its even thickness, netted structure give better ability to absorb dust particles and to lock them in. It exhibits good resistance to abrasion under rigorous use or when wiping rough surfaces.

It can be widely used to wipe electronic products, cleaning and polishing internal stainless steel pipe.

Size:	Pcs/bag	Bags/carton
9" x 9"(22.9cm x 22.9 cm) wiper	150pcs/bag	10bags/carton
6" x 6"(22.9cm x 22.9 cm) wiper	150pcs/bag	20bags/carton
4" x 4"(22.9cm x 22.9 cm) wiper	600pcs/bag	40bags/carton
12" x 12"(22.9cm x 22.9 cm) wiper	150pcs/bag	10bags/carton

Note: Customized Size and Package available.
